Feeding instructions

Squeeze one mouth syringe onto the tongue of the horse after heavy sweating following competition, training or travelling, and encourage the horse to drink.

Water should be available at all times.

Do not exceed recommended daily quantities.

Packaging

Box of 10 mouth syringes of 50 g net

Carton of 50 mouth syringes of 50 g net

Anti-doping certificates

Each batch is officially certified by the LCH (following controls on final product, urine and blood of a horse receiving 3 times the recommended daily quantity).

LCH certificates are available on www.twydil.com (by entering the batch number).

It is the user's responsibility to conform to the directives of the local competent authorities presiding over his region or country. Concerning some ingredients of our formulas, the national regulations may change independently from the FEI rules.

Compositions also available on our website www.twydil.com.

Storage and precautions

Store in a cool, dry place.

Minimum storage life (under proper storage conditions): until best before date shown on the mouth syringe. Keep out of reach of children.
